Step 5: Securely Store the Seed Phrase for your Wallet

Next, you'll be asked to write down your seed phrase. It's very important to keep this phrase stored in a secure place. With this seed phrase, you can restore your wallet if you can't remember your password or if you got locked out. Try to save it in multiple places. MetaMask recommends writing it down on a piece of paper and backing it up to a password manager like 1Password.
