How to Buy ETH in MetaMask

Buying **Ether (ETH)** in **MetaMask** is a fast and secure way. It reduces the number of steps involved in the conventional way of buying ETH from any cryptocurrency exchange and transferring it to the wallet.

You can buy Ether (ETH) in MetaMask in 3 ways:

Directly Deposit Ether

Buy with Wyre

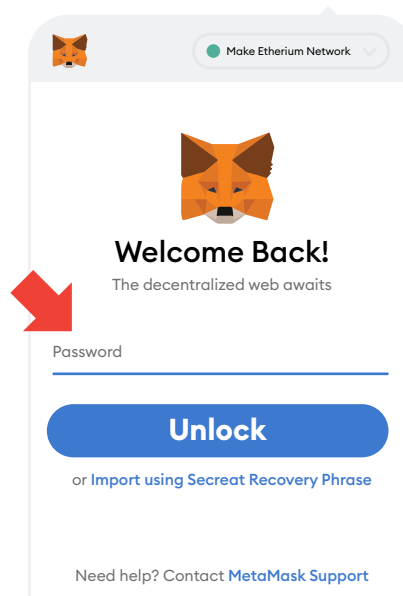

Buy with Transak

Direct Deposit Ether

If you already purchased Ethereum (ERC-20) or Ethereum based tokens (ERC-721, ERC-777, and ERC-1155), you can deposit that from your existing wallet or any cryptocurrency exchange in MetaMask.

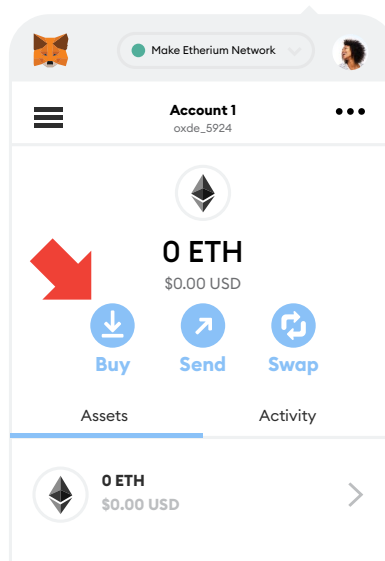

Step 1: Go to MetaMask

Go to your MetaMask wallet extension. Type your password and click Unlock.

Step 2: Click Buy

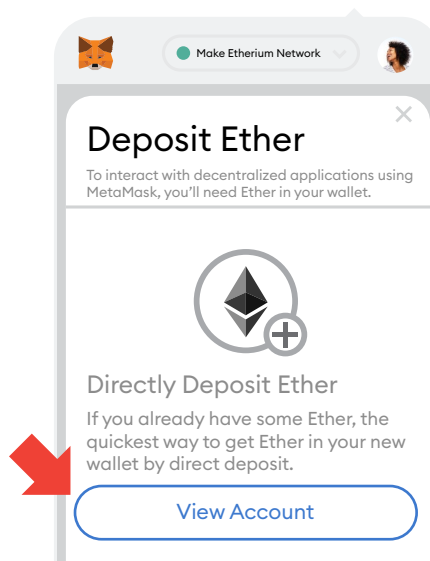

You could see the front page of the wallet. Just under your wallet balance, you can see Buy, Send, and Swap. Click **Buy**

Don't See your token?

Step 3: Select Directly Deposit Ether

After clicking the Buy, scroll a bit to see the Directly Deposit Ether option. Click **View Account**.

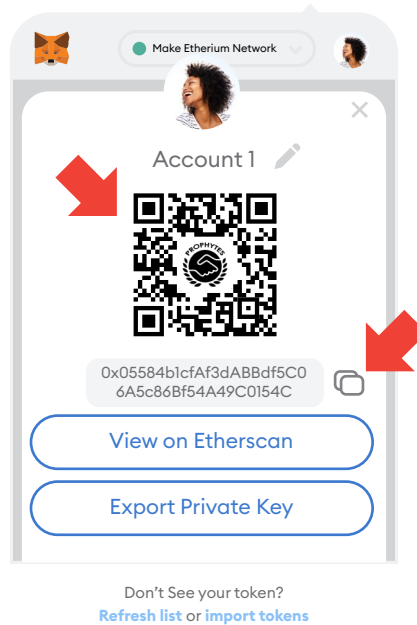

Don't See your token?
[Refresh list](#) or [import tokens](#)

Step 4: Copy your MetaMask address

After clicking the Directly Deposit Ether option, MetaMask will show you the QR code and the wallet address.

You can click the copy icon or scan from your existing wallet or cryptocurrency exchange.

Step 5: Paste it into your cryptocurrency exchange

After copying, go to your existing wallet or cryptocurrency exchange.

Go to the Send/ Withdraw option and paste the address you've copied. Fill in the necessary details and click Send.

Step 6: Check your MetaMask wallet

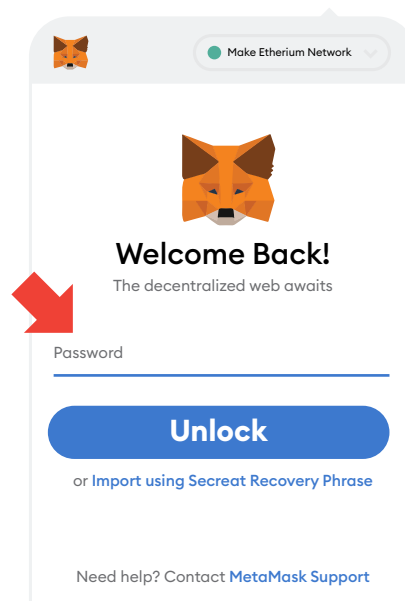

After depositing/ transferring your ETH, head back to your MetaMask wallet and check your balance.

Buy ETH with Wyre

Wyre is a payment API that accepts card payments or bank transfers worldwide. If you wish to buy ETH via your credit/ debit card, Apple Pay, or bank transfer, this is the option for you.

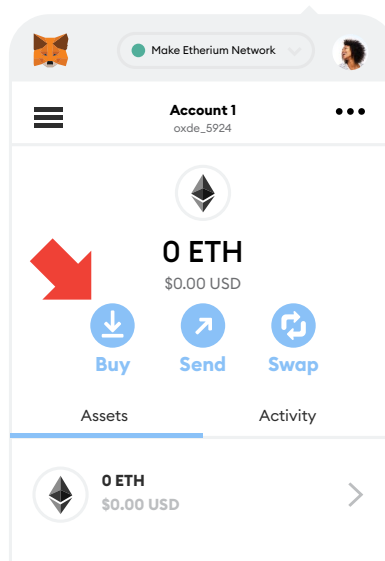

Step 1: Go to MetaMask

Go to your MetaMask wallet extension. Type your password and click **Unlock**.

Step 2: Click Buy

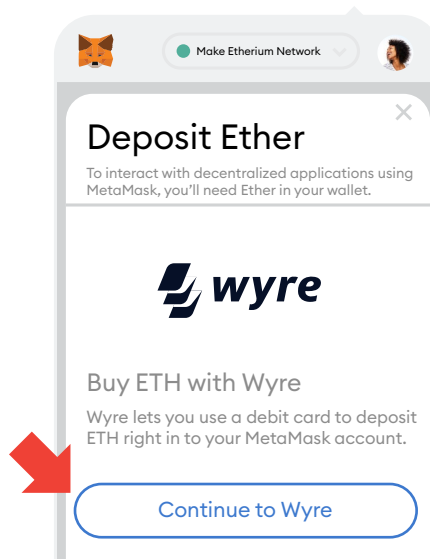

You could see the front page of the wallet. Just under your wallet balance, you can see Buy, Send, and Swap. Click **Buy**

Don't See your token?

Step 4: Select payment method

Upon clicking Continue to Wyre, it will take you to a new browser tab. There you can **enter your amount**, **select your currency**, and **select your payment type**.

The screenshot shows a mobile payment interface. At the top, a light blue banner contains an information icon, the text "Your limit is 1,000. Verify your identity to increase your limit to \$25,000/week!", and a right-pointing arrow. Below this, a large red arrow points to the "\$ 100" amount. A second red arrow points to the "-0.02443077 ETH" amount. A third red arrow points to the currency selection area, which shows "USD" with a US flag icon and "ETH" with an ETH icon, separated by a greater-than sign. A fourth red arrow points to a text input field containing the hexadecimal address "0x05584b1cfAf3dABBdf5C06A5c86Bf54A49C0154C". Below the address field is a "Credit / Debit" button with a card icon and a pencil icon. A light blue box contains a table with the following data:

ETH Exchange Rate	4093.20 USD
Transaction fee ^(?)	5.00 USD
Network fee ^(?)	5.19 USD
Purchased Total	110.19 USD

Below the table, a checkbox is checked, and the text reads: "Authorize Wyre to debt my account indicated for the amount above on today's date, and I agree to [Wyre's User Agreement](#)". A final red arrow points to a large grey "Next" button at the bottom.

If you wish to pay using your credit or debit card, click on the **Credit/Debit option**.

Select payment method

i This browser does not support Apple Pay

-  **Credit / Debit**  Instant
 3% fee
 \$500/week
-  **Apple Pay**  Instant
 3% fee
 \$500/week
-  **ACH Transfer**  Up to 5 business days
 0.75% fee
 \$25,000/week

Choose ACH transfer, if you want to transfer via your bank account. Bank transfer usually takes up to 5 business days whereas credit/ debit and Apple Pay are instant.

If you've chosen ACH Transfer, you need to verify your identity.

After filling in the amount and selecting the payment option, select the little box after reading the user agreement of Wyre, and click Next.

Step 5: Fill in the card and billing address details

After hitting the Next button, you need to fill in your billing address and the card details.

Once you fill in the details, click **Submit**.

Step 6: Fill in the OTP

After submitting, Wyre will take you to the payment gateway where you need to type the OTP sent to you. Ensure to follow the remaining prompts.

Step 7: Check your MetaMask wallet

After the transaction, head back to your MetaMask wallet. There you can see your ETH balance.

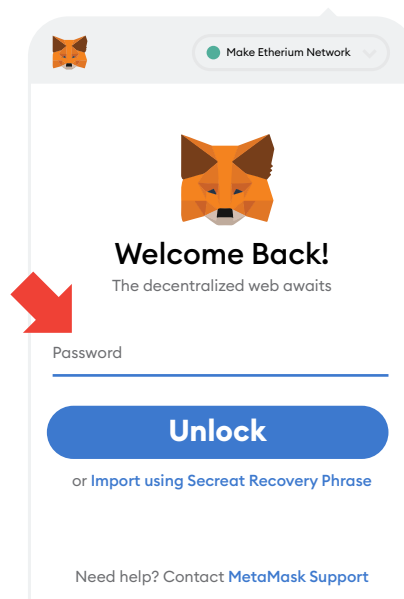

Buy ETH with Transak

Transak is integration for fiat-to-crypto payment. Like Wyre, Transak accepts card payments as well as bank transfers.

Transak is available in more than 100 countries with over 60 local currencies.

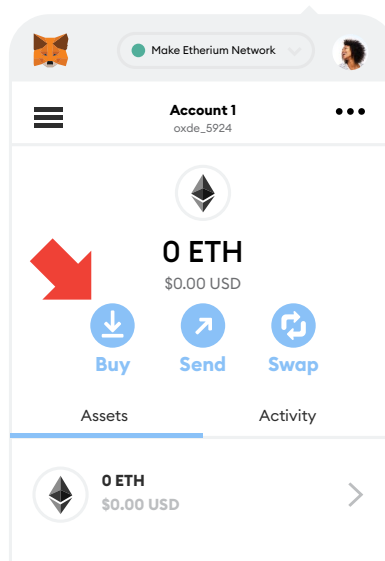

Step 1: Go to MetaMask

Go to your MetaMask wallet extension. Type your password and click **Unlock**.

Step 2: Click Buy

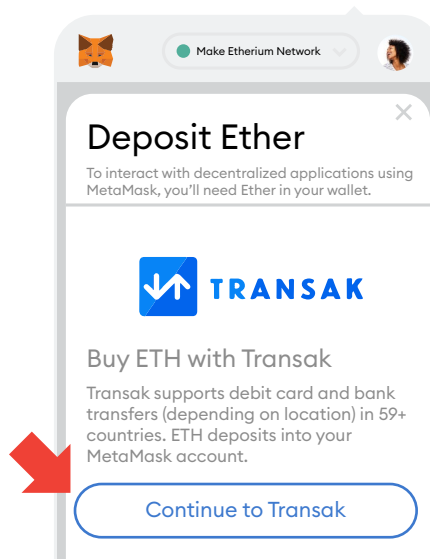

You could see the front page of the wallet. Just under your wallet balance, you can see Buy, Send, and Swap. Click **Buy**

Don't See your token?
[Refresh list](#) or [import tokens](#)

Step 3: Select Buy ETH with Transak

After clicking the Buy, scroll a bit to see Buy ETH with the Transak option. Click Continue to **Transak**.

[Refresh list](#) or [import tokens](#)

Step 4: Enter your amount

Upon clicking Continue to Transak, a new browser tab will get open.

Enter the amount that you want to buy ETH and select the currency.

You can see fee details just below the amount you've entered.

Slippage price denotes the difference between Transak's ETH price and market ETH price.

Step 6: Enter your email address and verify

Next, Transak will ask for your email address to send the verification code. Enter it and click **Continue**.

Please enter your email

Email

Now, enter your verification code and select the little check box. Click **Continue**.

Verify your email

We've sent a verification code at *****@gmail.com

Verification Code

 I agree with Transak's [Terms of Use](#) and [Privacy Policy](#).

Step 7: Complete KYC

This 5-step KYC process of Transak will take 2-4 mins and you will need your SSN number and address/ ID proof to be uploaded.

- **KYC Step 1:** Enter your name, mobile number, date of birth, and click Continue.
- **KYC Step 2:** Enter your address and click Continue.
- **KYC Step 3:** Enter your SSN number and click Continue.
- **KYC Step 4:** Upload address/ ID proof and click Continue.
- **KYC Step 5:** Upload your selfie

Step 8: Make your payment

Next, choose your payment option and follow the remaining prompts such as OTP verification at the payment gateway.

Step 9: Check your MetaMask wallet

Typically, Transak takes 1-3 working days for bank transfers. The processing time for credit/ debit card payments takes less than a minute (in the worst case, it takes up to 20 minutes). Wait for a few minutes and head back to your MetaMask wallet. There you can see your ETH balance.
